Electronic Pocket Dosimeters and SAIC Equipment for Sale

MJWTS has a significant number of personal dosimeters that we have repaired and sold for nearly 14 years. While a number of these makes and models are no longer supported by the manufacturer, MJWTS has amassed a large pool of knowledge and tools to repair many of these dosimeters. Figure 1 shows the electronic pocket dosimeter inventory we have in stock.

Figure 1. Electronic Pocket Dosimeters MJWTS has in Stock

The list of the dosimeters shown in Figure 1 is shown below.

10 - RADOS RAD 60R, (10 left) – Cost - \$410, Resale - \$499

4 - RAE Systems DoseRAE 2 – Cost - \$247.50, Resale - \$500
(Discontinued from RAE and no longer supported by manufacturer)

4 - RAE Systems PD-3i-s – Cost - \$321.75, Resale - \$399

(Discontinued from RAE and no longer supported except by us, we have many parts for these units)

1 - RAE Systems MiniDOSE PRM-1100 – Cost \$79, Resale \$99

(Discontinued from RAE and no longer supported by manufacturer)

2 - Arrow Tech Model W500 Cost \$150, Resale \$195

2 - Arrow Tech Model 138 Cost \$117, Resale \$195

We will sell the above inventory of EPDs at cost for a total of \$6,990, which includes any and all parts we may have in stock.

In addition, MJWTS has been repairing and calibration SAIC personal dosimeter models PD3i and PD10i. We try to recommend these items to those that have non-repairable PD's. We have 72 new PD3i personal dosimeters. MJWTS has a large supply of SAIC hardware and software as well as repair equipment for these dosimeters. MJW will sell our inventory of 72 PD3i EPDs for \$55 each for a total of \$3,960. A recent Ebay ad lists a used PD 3i for \$90.

The following figures show this entire SAIC inventory. MJWTS is prepared to package and ship this entire inventory free of charge to any interested party who is willing to pay the shipping costs.
